Educators Credit Union Announces Relocation of Its Oak Creek Branch to Drexel Town Square

Oak Creek, WI – Educators Credit Union is celebrating the relocation of its Oak Creek branch. The brand-new location opened on February 22 in Drexel Town Square and sits only a few blocks from the previous location.

“We are dedicated to providing our members with best-in-class service, and we are excited to relocate to a vibrant community in the heart of Oak Creek,” said Educators Credit Union Chief Experience Officer Shannon Huot. “We look forward to building and deepening relationships with local businesses and the families who call Oak Creek home.”

The new branch features a full-service, interactive drive-up called TOMs. A TOM is a Teller Operated Machine that looks like an ATM, but it offers more functionality. When using a TOM, members are connected to an Educators Credit Union staff member through video who will guide them through using the machine. TOMs can help members with transactions and questions just like a teller.

TOMs will also be available inside the branch to assist members along with in person staff. The remainder of the space is dedicated to supporting face-to-face and personalized services, such as personal banking, commercial banking, loan services and financial planning.

Other notable upgrades include private offices with full-length glass walls, clerestory windows and modern finishes and furnishings.

The physical address is 130 W. Town Square Way, Oak Creek, WI 53154.

About Educators Credit Union:

Educators Credit Union is a not-for-profit financial institution serving more than 216,000 members. Since 1937, Educators Credit Union has been dedicated to helping people make informed financial decisions through educating and advising.
