

Account Aggregation in Online Banking

After you log in to Online Banking:

1. Click your username on the right-hand side of the screen. This will display a dropdown menu. Click the "Settings" option in this menu. On the setting page, click on "Accounts" and then click on the "Link an External Account" link.
2. Click on "Link accounts from another financial institution."
3. Select one of the listed financial institutions or search for your financial institution. Once you select your financial, you will need to enter in your username, password and any other login information needed for that financial's online services.
4. After authenticating, you will be presented with a list of accounts. Select the accounts you would like aggregated to your Educators Credit Union Online Banking account. You can also nickname the accounts at this step. Please note it can take up to 60 minutes to display the aggregated accounts.
5. Once the aggregated account has synced, you will see transactional history populate within our Online Banking account.
6. You can change the nickname of the aggregated account, force sync the account data or delete the account from the "Accounts" tab within the settings section.

Add an external account

Select the type of external account you would like to add.
